NEWS RELEASE

DATED: March 2, 2007

TSX.V SYMBOL: ALZ

Jeremy Caddy, President of Aldershot Resources Ltd. (the “Company”) is pleased to announce that the Company has entered into a Tenement Swap Agreement with Thundelarra Exploration Ltd. (Australia Stock Exchange: THX). The terms of the “swap” are THX will exchange its three tenements located around the Company’s Yuinmery uranium property in the Murchison region of Western Australia for the Company’s Mt Wedge tenement located in the Nagalia Basin region of the Northern Territory. The “swap” is for consideration of \$1.00 along with a royalty to be paid by each party to the other of \$1.00 per tonne of ore mined to a maximum of \$500,000 each.

Management is delighted to have been able to negotiate this transaction. The acquisition of the additional tenements in the Murchison allows the Company to consolidate its previously reported valuable holding at Yuinmery where historical reported results have shown drill results which are non compliant NI 43-101 of 1.5 million tonnes of 0.038% U3O8 yielding 1.2 million pounds of contained U3O8.

THX is a public company whose shares trade on the Australian Stock Exchange. Frank DeMarte and Brian Richardson are director/officers of both the Company and THX.

The terms of the Tenement Swap Agreement are subject to all required regulatory approvals.
